Chairman Speech

YM (Lie. Gen) (R) Dato' Raja Rashid Raja Badiozaman

Chairman of MySkills Foundation

I joined Myskills Foundation in 2011. It all began when I was told that many students were dropping out of school and affiliating themselves with gangs; which made them to turn to crime and bring harm to the nation. This certainly left an impact on me. I started to accept that there was a dire need to reach out to these kids and transform them to become a better person.

Founded in 2010, I strongly believe Myskills Foundation has made a deep impact on the lives of at-risk youths and school dropouts who we refer as the 'disconnected' because they rarely have someone to rely on or a healthy support network to guide them.

We have worked hard in honoring the voices of at-risk youths and school dropouts for the past 6 years. We have made our services more relevant by

equipping these youths with right values and skills. We ensure they are gainfully employed so they can become a useful person to their family and nation. It is indeed tough and difficult for Myskills team and related volunteers to transform these youths who are generally slow to change and often challenge the practice and boundaries of Myskills. But the line "I will not give up on you" constantly appeared in our minds to remind us of our boundless duty to guide them toward a good way of living.

'Some beautiful paths cannot be discovered without getting lost'. Yes, we have experienced pain and struggle to have stories to tell you. The pain equipped us with the strength to rise up again and move beyond it all. We not only become stronger but wise enough to recognize and handle

challenges in future. We will continue to learn from it and let it lead us to the most beautiful paths of our journey in Myskills. Only then we will have more stories to share with you in coming years.

Thank you.

**YM (Lie. Gen) (R)
Dato' Raja Rashid Raja Badiozaman**

Director Speech

S.Pasupathi

Director of MySkills Foundation

2015 was a year of struggle, ambition and triumph for MySkills.

Words cannot express enough of how amused we were when the letter we received from Prime Minister's Department stated that; the request of RM10 Million for our newly to-be-built Youth Transformation Campus in Kalumpang has been approved. We were glad that our advocacy and hard work to save at-risk youths and school dropouts of this nation has compelled policymakers to turn their attention to these youths and to come forward to support initiatives by NGOs like us. A special thanks to Datuk Ravin Ponniah, Datuk Dr NS Rajendran, the late Datuk A Sundran and Mr Seelan for making this possible.

There is a substantial need to reach out to these youths, to prevent

and intervene in their problems, to improve environments in which they live, and foster their overall positive transformation. Almost 30% of our students are affiliated to criminal gangs. We believe kids get into this because they do not see better options. We just have to give them something really better to do. Things will not change until we do.

We have to give these kids a completely new, fulfilling life. It will cost us less in the long run if we do the right thing now. MySkills Youth Transformation Campus (MyTc) is the answer. It will be a campus with all facilities; sports, arts, music, vocational training workshops, recreations and many more to instill the right values and skills in the youths. If we give this to them, we can prevent thousands of kids from becoming criminals and we can turn them into productive citizens and family men.

I always ask myself why do we need to struggle our way through to raise funds to make this campus a reality? That's when the line of Confucius, a Chinese philosopher reminds me that 'when we are faced with what's right, to leave it undone shows a lack of courage.'

No matter where we are and whatever resources we have, we have an opportunity to make these youths lives better, to transform our community and nation as a whole.

We will move on with full courage.

Thanks

S.Pasupathi

Executive Director Speech

S. Selvamalar

Executive Director of MySkills Foundation

It will be 'finished' if you send me back home" said Velu to me when we were having our lunch together a couple of days ago. I asked why and I was taken aback after listening to what he said after that. Velu came to us referred by Welfare Department when he was 12 and now he is 15. In the past three years of his stay with us, Velu has certainly grown up to be a fine composed teenager. He has sharpened his language and social skills besides equipping himself with baking skills learnt from our bakery.

There are many 'lost' kids like Velu outside there; they stop going to school due to factors like family issues, peer pressure and low self-esteem. They tend to alienate themselves from mainstream society and support systems that could determine their future success. Something has to be

done to save these kids. Their barriers to education, employment opportunities and positive living need to be addressed.

I never imagined myself to be working in NGO when I was younger. But gradually this changed when I started encountering many at risk youths and school dropouts in my neighborhood and school. I started asking myself; how can I bring difference into their lives? I began volunteering in charitable activities organized by my school and varsity. That's when I realized I can use my career to make a difference in the lives of these kids.

I agree that transforming at risk youths and school dropouts is a mammoth task which requires huge responsibility and passion. But the endless support, commitment and dedication from

amazing team mates and volunteers have got us this far. Not forgetting our donors and contributors who do countless things behind the scenes for our kids; thank you for continuing to believe in the journey of Myskills. Myskills will continue to be the 'transit' allowing kids like Velu to get their lives back.

Thanks

S. Selvamalar

CORPORATE PROFILE

About Myskills Foundation

In the last few years, we realized that the problem faced by underachievers and school dropouts; or we term them as 'At-Risk Youths' is bigger than what we assumed it to be. It was found that nearly 7,000 students are dropping out from school every year before reaching SPM. Our involvement with grass root based community work confirms that there was no concerted effort to investigate, analyze and find suitable solution for students who fail to achieve academically due to various reasons like poverty, broken homes, inadequate attention and care in school and many others. It was decided then unless we have an organization solely dedicated to take care of the needs of these youths, the future of these youths going to be bleak.

So Myskills Foundation was formed.

Myskills Foundation is a not-for-profit organization sanctioned by the Ministry of Domestic Trade formed officially in 2011. As a 'Yayasan', it is registered as a company limited by guarantee with registration number 934882-H.

We exist to TRANSFORM the lives of At-Risk Youths who:

- Come from Dysfunctional Families
- Come from Unsuitable Family Living Environment
- Lack in Spiritual Values
- Live in Poverty
- Have Negative Peer Group Influence
- Face Unequal Education Opportunity

All our activities and programmes are geared towards transforming At-Risk Youths, equipping them with right skills and placing them with proper jobs so they can be gainfully employed.

HQ ADDRESS:

No.3, Jalan Yap Ah Shak, 50300 Kuala Lumpur.
 Tel: 03-26916363 Fax: 03-26917363
 Email: myskillsfoundation@yahoo.com

PORT KLANG CENTER ADDRESS

Tingkat 1&2, Kompleks Hentian Pelabuhan Klang, 42000 Pelabuhan Klang, Selangor.
 Tel: 03-3167 9000 Fax: 03-3167 9005

SUNGAI PETANI OFFICE ADDRESS

No. 6A, 1st Floor, Jalan Cindai Jaya 1A, Taman Cindai Jaya, 08000 Sungai Petani, Kedah Darul Aman.
 Tel : 04- 4240574

VISION

To transform 100% of at risk youths who begin skills training with us into skill workforce fit for employment by using our holistic transformation module.

MISSION

To provide 'second chance opportunity' for at-risk youths to acquire fundamental social, living and workplace skills to ensure they are integrated into the mainstream society.

To equip market relevant skills training among at-risk youths to open up windows of opportunity for them to be gainfully employed.

WHY ARE WE DIFFERENT?

We are a mission driven social enterprise:

• Using business approaches to achieve social goals for public benefits by transforming at-risk youth in our community into a responsible citizen.

• 100% of our profits are reinvested to sustain and further our mission of transforming at risk youths in our community.

Board of Directors

Lt. Gen. (R) Dato' Raja Rashid Bin Raja Badiozaman
Chairman

He holds a Master Degree in International Relations and served as a Lieutenant General with Tentera Darat Malaysia for the country for 35 years.

Pasupathi Sithamparam
Director

He is a lawyer in practice since 1990. He is actively involved in various social organizations; namely being the Founder Member and President of Tamil Foundation.

Dr. Sanmugasiva Manickam Pillai
Director

He is a medical practitioner and a veteran social activist. A prolific writer in Tamil and hosted a number of notable medical programmes on Astro Vaanavil.

Palaniappan @ Mohan Chockalingam
Director

He is a qualified valuer with B.Sc (Hons) in Estate Management. He is the Director of TD Aziz Sdn. Bhd. and has been actively contributing to the community through EWRF and Myskills Foundation.

**Ir. P. Krishna Kumar***Director*

An engineer by profession and has been actively involved in Tamil School development affairs and activities. He runs his own consultancy firm and is now heading Myskills's Kalumpang Youth Transformation Campus Construction Team.

**Richard Hew Siong Ming***Director*

A qualified civil engineer who has retired. He has been involved in youth related community activities across races. He has provided great support and an asset in linking Myskills with industrial partners.

**Mr Raghavan Annamalai***Director*

He is the President of Tamil Foundation Malaysia. Graduated in Aviation studies and has wide range of experience in the field of insurance for nearly 18 years. He is specially appointed as the Insurance General Agent to represent MSIG and Allianz.

Promoters

Dr Kuppu Velumani

Medical Practitioner

Obstetric & Gynaecology KPJ Ampang Puteri Specialist

Y. Bhg. Datuk B. Sahadevan

Managing Director / Secretary NLFCS – National Land Finance Co
Operative Society Ltd.

Y. Bhg. Dato' Yogesvaran Arianayagam

Former President of EWRF
Founder of Sentosa 4D Magix
Managing Director of Asian Pac Management Sdn Bhd

Key Staff Profile

Ms Selvamalar Selvaraju
Executive Director

Graduated with Master Degree in HR from University Putra Malaysia (UPM). Gold Medal awarded by Sultan of Selangor in 2005 for being the top student of the university with CGPA 4.00.

Graduated with First Class Hons. in LLB from University of Aberystwyth, UK. Has 2 years corporate experience working with Resorts World Berhad Group (Genting) 3 years as Executive Director of Educational, Welfare, and Research Foundation Malaysia (EWRF). 2 years as Skills Training Manager under the Special Implementation Task Force (SITF), Prime Minister's Department.

6th year journey with Myskills:

"I admit it's a tough journey but I can't turn back now. A dream has been built for our youths and that dream has to become reality. Kalumpang Youth Transformation Campus will be the testimony of our hard work. Till then, we will soldier on."

Mr Devasharma Gangadaran
Chief Executive Officer

Graduated in B.Sc Human Development & Management from Universiti Putra Malaysia (UPM).

Vice Chancellor Award Winner Year 2009 Started his career in Human Capital Management in 2008 with Resorts World Berhad.

Exposed to various aspects of human capital management specializing in Planning and Development.

Fund-Raising Director of EWRF Malaysia.

6th year journey with Myskills:

"What can I say? It's my 6th year with Myskills. As a young CEO I am dealing with at risk youths and school drop-outs. It is certainly a great challenge for me and no doubt I have learnt a lot throughout my years in Myskills. Not only the kids, Myskills is shaping me too."

Ms Justina Camelia Jonah
Senior Manager

Graduated with a Degree in B.Ed. TE from UNISEL. Served as a trainee teacher in a secondary school.

She was actively involved in an NGO based in Hulu Selangor.

Her active involvement in church activities triggered her to join MySkills Foundation.

6th year journey with Myskills:

"Fuuuh....I can't believe this is my 6th year with Myskills. I don't see Myskills as my employer; the management and staff are like my family members and the students are like my brothers and sisters. I think this what kept me going strong all this while despite the challenges I face at workplace"

Ms Norazlinda Binti Zakaria

Vocational Skills Trainer
(Head of Electrical Dpmt)

Graduated in Sijil Kemahiran Malaysia (SKM) Electrical course module from ILP Jitra, Kedah.

Qualified as a Vocational Training Officer from CIAST.

A licensed vocational trainer accredited by Ministry of Human Resources Has been teaching electrical course module at various institutions. Head of the Electrical Wiring training department of Myskills.

5th year journey with Myskills:

"I am happy to be given an opportunity to train 300 over boys in Myskills to become electricians and technicians for the past 5 years. Race and religion are not barriers to transform underprivileged kids at Myskills. My students never fail to wish me on my birthday. That's what matters to me the most. Alhamdulillah, I can proudly say I have saved some youths from becoming criminals for this country"

Ms Safiha Hafsah Binti Md.sharif

Vocational Skills Trainer

Graduated with electrical course module (SKM) from ILP Jitra, Kedah.

She is a qualified Vocational Training Officer (VTO) for electrical wiring course module.

She taught electrical wiring in other private training institutes prior to joining Myskills.

A very young enthusiastic trainer determined to part her knowledge to students.

3rd year journey with Myskills:

"In the beginning, I struggled to understand the psychic of kids at Myskills. They have low attention span, highly manipulative, some come from problematic families and the list just goes on. They were 'different' compared to students I have encountered in any other institutions. But I decided to stay on, to explore and to try my level best to transform them. I believe I have succeeded to some extent; I owe a big thanks to my 'patience'."

Ms Sugunia Mutu

Trainer & Transformation Executive

Highly enthusiastic Sugunia graduated in Diploma Instrumentation Technology from ILP Kepala Batas

Qualified as a Vocational Training officer (VTO) from CIAST.

She worked in Silicone of Technology in Penang.

Currently Trainer for Mechatronic Department.

3rd Year journey with Myskills:

"Myskills helped me to get a seat into government-run skills training institute, ILP after I finished my SPM. I decided to give back and that's why I came back to Myskills to serve the kids here. I miss my family everyday because they are in Kedah and I am here. At times I have thought to return back to Kedah but I feel like I am 'glued' to this place."

Ms Bavithira Ramanathan

*Administration and Students Affairs
Senior Executive*

She is a 1st Class Hons award winning graduate in the field of Bachelor Admins (HRM) from UNITEN.

She started her career fresh with MySkills due to her interest in social work. Highly energetic and empowered in handling tasks related to students transformation.

2nd year journey with Myskills:

"This is my second year in Myskills but I feel like I have served this place for more than 5 years. Within this short period I have had tremendous working experience especially learning on the psychology of at risk youths. Transforming these kids it's not an easy task as I thought it would be before joining Myskills."

Ms Muniswary Chandran

*Students Affairs and
Administration Executive*

A fresh Diploma Graduate in Business Management studies.

Joined Myskills as an intern in 2014.

Dedicated to continue her work at Myskills as a full time staff.

3rd year journey with Myskills:

"The decision to work in Myskills after completing my internship here, crossed my mind just like that. I think I like the working environment; and its fun being surrounded by the kids. They love to crack jokes and sometimes I end up laughing longer than them...haha. I am happy here."

Mr Govindaraju Muniyandi

Quality Assurance & Property Manager

20 years work experience in the manufacturing industry.

His experience ranges from Engineering, ISO Quality Management Systems and Operations.

He has worked for many multinational manufacturing companies. His valuable industrial experience is of great advantage to us.

4th Year journey with Myskills:

"Myskills Foundation is a non-profit organization. My work experience in manufacturing industries is totally different compared to the work I do in Myskills. Here our focus would be the kids. We are 'student' centered and not 'profit' oriented."

Mr Prabakaran Manoharan
Industrial Liaison Executive

Graduated with a Degree in Banking and Finance from Asia Pacific University. Was the Ambassador of the University Embarked in many social activities with ENACTUS (Student in Free Enterprise-SIFE) and other NGOS.

Led a social engagement program at perkampungan orang asli called Kensiu in Lubok Lenggong, Perak.

Trainee at Standard Chartered Bank for 3 months before deciding to join MySkills Foundation.

1st Year journey with Myskills:

"This is my first year with Myskills. I am still green as grass. My duty is to place our graduates with jobs. Engaging passionate employers is one of my major tasks. Getting jobs with secured income for these kids gives me great satisfaction especially when students call me personally to thank me for finding them a job."

Mr Rajandran Kumaran Nair
Admin and Maintenance Assistant

Served the Army under the Royal Artillery as a Radar Operator Held the position of Logistic Officer for 22 years there.

Retired as Warrant Officer and joined a legal firm in Kuala Lumpur.

3rd Year journey with Myskills:

"I just love mingling with the kids. They make me feel young too...haha. I know when to impose force and when not to; to make them follow our practices. Myskills kids are close to my heart. I play the role of father to some of them; especially to those who have lost their father at an early age."

Parvathy Subramaniam
Admin Assistant & Pantry Supervisor

She is our pantry supervisor whose work experience ranges from packaging companies in Singapore to apparel manufacturers, digital decoder servicing and medicine quality certification operator in Malaysia. A multi-exposed personality; with a flair for hospitality.

6th Year with Myskills:

"I have been following Myskills from the year it was formed. From shop lot premises in Puchong to a stand alone building in Port Klang now. I am glad that I am a part of Myskills. I wish to see the Myskills Kalumpang Youth Campus becoming a reality in few years to come. That's our dream."

MySkills Graduates Became Myskills Staff

MySkills graduates who have shown great progress and transformation in attitude and behavior will be given a job opportunity to serve MySkills Foundation. They become our 'change agents' as they have successfully gone through the Transformation programme in MySkills. By having them in MySkills, they certainly add value and quality to our transformation work.

Mr Valan Sinnaya

Head of Hostel Management & Student Affairs

Dropped out of school at the age of 13.

Graduated with SKM Level 3 in Electrical Wiring from MySkills in 2013.

Joined MySkills to give back what he has gained.

Heading the hostel team while managing and training students.

2nd Year journey with Myskills as staff:

"I thank Myskills for giving me this job to lead the boys. When I was a student of Myskills, I used to give so much of trouble to the trainers and staff. But now, things have reversed. I am a staff of Myskills and the students are giving me trouble...hehe...I am managing fine because I know how and what runs in their minds because I was in their shoes before."

Mr Ramachandran Arumugam
Technical & Network Administrator

Graduated with SKM Level 3 in Mechatronics and Information Technology.

An ex-student of Myskills.
Has been working with us from the day he graduated from Myskills. Currently he is the Technical and Network Administrator.

4th Year journey with Myskills as staff:

"Myskills is very special to me. It has brought me far from where I was to where I am now. Although I specialize in Mechatronic and IT, I was also given an opportunity to attend photography courses because I was interested to learn that. Yes, all for free. Thank you for appreciating my work and talent."

Ali Anak Baba
Maintenance Technician

Comes from Pulau Carey native settlement (Kg. Orang Asli).
Had no interest to complete SPM.
Started his journey with MySkills when he was 16.

Completed transformation programme and obtained SKM Certificate in Electrical studies from Myskills. Ali is now working at MySkills Foundation as Maintenance Technician.

3rd year journey with Myskills as staff:

"I have never imagined that I would be working in Myskills for a fixed income. In my village, most of the boys like me are jobless and involved in drugs. When I think about them, I feel very fortunate to have known Myskills. I still remember the joy on my father's face when I parked my newly bought motorbike in front of my house."

Banulatha Devandran
Finance & Accounts Administrator

Comes from Kuala Selangor
Completed Myskills Transformation programme.
Graduated with SKM Level 1, 2 and 3 in Legal Secretarial course.

A very determined person with strong personality. Pursuing her part time Diploma studies while working in Myskills.

3rd year journey with Myskills as staff:

"I have always wanted to be a leader. But I didn't know how to go about it. Luckily, Myskills chose me and offered me a job. I just said 'yes' straight away. I was exposed to legal clerical work and gradually I was trained on accounts and basic book keeping. Accountability and honesty are the two major things taught to me by Myskills."

A tribute to Late Datuk A. Sundran who assisted Myskills in all ways possible to make Myskills Kalumpang Youth Transformation Campus dream a reality.

My Friend Datuk Dr A Sundaran

Many a time we read sad news of people getting involved in accidents and we move on unperturbed.

When we know it is someone we know the news will hit us with a shock that can paralyse our mind for hours or days. That's what happened to me on Thursday night when I heard my good friend Datuk Sundran was on board of the ill-fated helicopter that went missing on the route from Betong to Kuching.

I met Sundaran in 1983, when I joined the government service as an Income Tax officer. He was working for the Treasury then.

For a while I carpooled with him. He is a soft-spoken and loyal government servant. We used to meet up in the only Indian stall in Jln Duta government offices complex. He is a man of few words. Soon I got transferred to Income Tax Johor Bharu. I lost contact with him. Later I met him upon his return from Japan completing his Doctorate studies. I was surprised in his busy schedule Dr Sundaran completed his law studies.

I met him with his brother Ragavan (Ex Air force Warrant officer and current Tamil Foundation President) before Dr Sundaran left for World Bank to take up the prestigious post as executive director for the Southeast Asia Group. I was proud of his achievements. As usual he was cool and had few words to speak about his posting.

My last meeting with Datuk Dr Sundaran was when Myskills was called up by the Ministry of Finance to discuss the Capital Expenditure Funding that was approved by the Prime Minister on the recommendation of Datuk Ravin Ponniah. Datuk Dr Sundaran gave us a warm welcome and introduced me to his subordinates as a friend whom he knew from the 80's.

He spoke many good things about Myskills and assured we will get the funding promised by Prime Minister soon. Within 2 weeks we received the funds for our to-be-built campus in Kalumpang. He is a rare breed of government servant who is very hard working and loyal. We just cannot come to terms with what has happened.

May his soul rest in peace.

- S. Pasupathi

*A butterfly you are
You come to this world as cocoon
And blossom into a beautiful butterfly
But why did you fly away from all of us
Leaving us without word
Nothing left to say*

*We don't want to see you go
But we have to let you go
Your battle is now over
But we still don't understand why this had happened to you?*

Why Fly Away?

*We can no longer see you
But we will never say good bye to you
Your wife, children and family have to be strong;
Not for them
But for everyone else*

*The way He took you just wasn't right
Yet we will continue to celebrate your life
And the measure of its worth
And lives that you have touched
While you were on this earth*

*We know God has you in His keeping
But we have you in our hearts
Your friendship was a blessing
If only God grants us a wish
We would whisper to Him this:
'Please return Datuk Sundran to us'*

With tears,
Sincerely
Myskills Foundation

Great Souls Journeying With Myskills

"Solving Mathematic Riddles"

Mr Gunasekaran Karapaya

Mr Gunasekaran Karapaya

I teach arithmetic to Myskills students weekly once. I chose to volunteer myself at Myskills because I love serving the underprivileged kids of our community.

I believe one should not volunteer to fulfill some kind of 'charity' quota of theirs. But they should do it simply because it must be done.

Mr Guna has Tamil school and secondary school teaching experience.

He lectured in Teachers Training College from 1992 -1994.

He served as Schools Inspector from 1997-2015.

He is famously known as 'Fl-Guna'.

He is one of the pioneer NGO representatives who initiated Youth Development programme focusing underprivileged teenagers.

"Weekly session on easy way of understanding Maths"

Mr MP Muthu

Mr MP Muthu

I visit Myskills weekly once without fail. I always make it a point to meet and catch up with the students to follow their progress. I bring them for hospital visits and to welfare homes so they could self reflect on how fortunate they are and appreciate their lives.

My wife and children always ask me to take a break at this age. But something is compelling me from within; pushing me to act on deeply held beliefs about the importance of helping others.

The feeling that I can shape someone's life for the better is unexplainable.

Mr Muthu is a man of simplicity. He is serving the Malaysian Petroleum Club as the Purchasing Executive for about 25 years.

He actively involves in charitable work of various NGOs such as Sai Centre, Blood Bank, Feed the Homeless and Myskills and etc.

A very talented cook he is. And never fails to visit our girls' hostel to cook special dish for them.

"Service to the underprivileged @ Chesshire Home"

Ms Saraswathy Rajahram

I want to contribute to the society in any ways that I could although I have passed 70. I joined Myskills because Pasupathi, the Director of Myskills approached me to teach baking to the bakery students. To tell the truth, after about a couple of weeks of volunteering, I felt like my efforts were in vain, that the kids did not really appreciate what I was trying to do. It was a slow process and it led me to frustration.

But some of the kids started asking where I was when I skipped some of their classes. I was glad that at last they 'missed' me. They said they liked having me around because I am like their 'paatti ma' (granny).

Now, things have changed. And I feel like my weekends are incomplete if I don't go to Myskills to meet my bakery students.

Ms Saraswathy Rajahram

Madam Saras is 75. She is a retired pharmacist and was the first Indian female pharmacist to open a pharmacy in this country in 1980s. She is a great baker and specializes in baking vegetarian cakes. She comes to Myskills MyBakery weekly twice to train our students on cake baking.

Mdm Saras is a very determined, dedicated, passionate woman who is indeed an inspiration to all of us at Myskills. She comes by taxi, pays her own fare and she refuses to take a single cent from us even for her travelling expenses.

"Training the young bakers on fruit cakes"

The background is an abstract composition. The upper half is a soft, hazy gradient of warm colors, transitioning from a pale yellow at the top to a light orange and then a pale pink towards the middle. The lower half is more dynamic, featuring large, overlapping, and somewhat translucent shapes in shades of pink, magenta, and purple, resembling watercolor washes or ink splatters. Scattered throughout the lower half are numerous small, dark purple dots and larger, irregular splatters of the same color, creating a sense of movement and texture. The overall effect is ethereal and artistic.

WHAT DO WE DO IN MYSKILLS?

Our Transformative Activities

"The wet team on every weekend"

Splash, Dive and Get Wet!

Our boys love swimming because it provides many reasons for them to get into the water. 20 to 30 of them will gather every weekend without fail to go for their swimming classes at Pandamaran Swimming Centre facilitated by our staff Mr. Velan. Being immersed in water, we found that swimming allows them to relax and 'switch off' from daily chores, which is why at times we face tough time getting them out of water!

Sport plays a crucial role in developing youths. Many found that it helps to improve self esteem, reduce behavioral problems and enhance psychosocial skills. Yes, this is true. Students of Myskills are found to be more disciplined after sport trainings, able to support teamwork and are willing to 'let go' or lose in the spirit of sportsmanship. Some of the sport activities listed below are being conducted for our students on a weekly basis.

"Swimming sessions conducted at Dewan Sukan Pandamaran"

"Mr Thiru briefing the safety precautions on pre-training do's and don'ts"

Keep Fit, Kick Fat

To keep the body in good health is a duty, otherwise we shall not be able to keep our mind strong and clear. A gym with better training equipments and exercise tools was specially set up in the hostel for students of Myskills. The fitness training and exercises are conducted by Mr. Thiru, a Telecommunication Network Service provider cum social worker on every Sunday. He trains students on basic weightlifting and workout techniques. He never fails to preach that fitness gives confidence to get more from life.

"Basic stretching and fitness reps"

Those who are obese are encouraged to hit the gym every morning so they keep their bodies in shape to fight off illness and prevent them from becoming flabby and weak. Research shows students who go to gym have 'happy' feelings because their bodies release well known happy chemicals called endorphins when they exercise or do workouts. These endorphins interact with brain receptors to reduce sense of pain resulting in an uplifting feeling. With these facts, we often make our gym attending students to ponder 'why take drugs or drink alcohol when our body can create its own chemical concoction of happiness?'

Futsal Sala !

Futsal is definitely the most favored sport by our students. We used to rent private futsal courts just to get our boys to play futsal. The dream of building a futsal court within our hostel premises became true when the Corporate Responsibility Group of MAXIS came in to join hands with us to build it for our students. It was a memorable day for the boys because they least expected a futsal court; right there in their hostel, allowing them to play anytime for 'free'. Our observation shows that students

who participate in futsal are able to move quickly and accurately with creativity mainly because they have less time and space to be effective. Some of the skilled students were selected to represent Myskills in an Open Futsal Tournament organized by Ampang Sports Planet. Although they got defeated in the tournament, they came back with full excitement because that was their first experience playing against professional futsal players.

"Fustal boys testing skills open futsal tournament"

Running/Marathon

"I was in secondary school when I discovered running. I love running so much. When I was a kid, not many saw running as a sport itself; rather we played football, badminton and hockey. But, running laps was what I did" said Vishnu, Myskills first year student who approached us to form a marathon team in Myskills.

Although marathon is not exploding in popularity, we realized we do not want to hold any of our students back; thus we formed a marathon team. Students who join the marathon team are trained to run at least twice in a week under the supervision of Myskills staff, Mr. Ramachandran. Around 15 marathon teammates who have shown great potential, had participated in the marathon run organized by Mercy Malaysia in July 2016.

"Returning from routine 7km training"

"Stretch yourself before stretching the road"

"After completing 7km Fun Run by Mercy Malaysia"

ALL VS One – chess match with malaysian chess candidate master”

CHESS

Two years ago, we were hesitant to say ‘Yes’ to Mr. Kumaresan and his team (professional chess players) who were so keen to introduce chess to our students. But we went on to give it a try after much persuasion by Mr. Kumaresan and his chess team mate Mr. Genkeswaran.

Now, we realize introducing chess to our students is one of the best initiatives we have taken to transform them. While playing chess, students learn that every move they make has a purpose. They set goals, strategize moves and these eventually improves their thinking and decision-making skills. To date our chess students have participated in numerous local chess tournaments with the guidance and endless support from their coaches.

“Myskills Chess Tournament 2015”

The background is an abstract composition of warm, layered colors. It features broad, diagonal strokes of light orange and yellow, creating a sense of movement and depth. Overlaid on these are numerous splatters and blotches of a vibrant red color, primarily concentrated in the lower half of the image. The overall effect is one of organic, painterly texture.

ARTS & LANGUAGE

ARTS & LANGUAGE

ART to HEART

"I have never thought that I would be able to paint until I join the Art class in Myskills. After joining the Art class I realize that my perception and observation are so much greater. I am learning how to stay focused" expressed Somanathan (an Art class student).

Can ARTS transform at risk youths?
 To a certain extent yes; and we found that our students who had attendance problems and poor social skills have shown great improvement after participating in the Art Class conducted by Mr. Segar, a professional artist.

"Color and its nature-Painting together with students"

He comes weekly twice to boost students' creativity through art. It is indeed a great achievement to say that the mural paintings on the classroom and corridor walls at our centre are all our students' masterpieces!

The involvement of our students in Art class forces them to consider it in ways that require their fullest attention. Thus, there's no way ART can be a meaningless thing; rather it keeps them focused.

"Mr. Segar guides each student based on their level of understanding"

Let's Learn Mandarin

We have never failed to remind our students who will be graduating as legal clerks and secretaries on importance of learning Mandarin because it would be one of the best investments they could make for their future.

Kishendran, 9 and Henavitra, 12 are the youngest and the 'cutest' language tutors of Myskills. These siblings come every weekend without fail to teach our girls on basic communication Mandarin. Both are exemplary students who are currently doing well in primary Chinese school. One may wonder how these young tutors are able to teach students who are older than them? To our surprise, most of our girls can now say simple sentences and greet in Mandarin after attending the class. Thank you Kishen and Hena for all your hard efforts; they paid off!

"Age is not a barrier for knowledge or skills transfer from the Little Masters"

Mural VS Gang Signs

We allow our students to paint murals on the wall. The murals have certainly transformed the outlook of the centre. Now, we do not encounter students vandalizing or covering up walls with their 'gang' signs; all because they do not want to damage the murals painted by them. In fact, they show more determination and interest in repainting the walls which have 'gang' signs. This clearly indicates a positive change in the thinking pattern of our students who want to create a more community involved mural.

Creating ownership and reducing vandalism through 'free art' by pre-v students

FRIDAY NIGHT FEVER (FNF)

Research shows students who are talented in dancing or singing are able to mature physically, emotionally, socially and cognitively more than those who are not. We have observed this in most of our students. They show great dedication and commitment when we provide them opportunities to perform in events and functions.

All students are encouraged to participate in the Friday Night Fever (FNF) celebration on every Friday of the week to showcase their talents. Students are to perform a dance or song number in front of their friends and teachers. Those who perform well will be given an opportunity to represent Myskills Foundation in other related programmes or competitions to move them a step further.

Dance, singing and drama to build confidence

Dance, singing and drama breaking barriers to build confidence and self-esteem

"Dressed formal, Speaking Vocal, that's Our Myskills Choral team"

CHORAL SPEAKING

Training our students on 'choral speaking' was exciting and at the same time hilarious. Some of them had no clue of choral speaking because they have not heard about it. The students awkwardly looked at each other when they were handed with script of the 'Choral Speaking' which was to be performed on Myskills 4th Graduation Day at Wisma Tun Sambanthan, Kuala Lumpur.

Some were facing difficulties to cite the words in English, some had tough time memorizing the 4 pages of script, some had stage fear and were shy and the list just goes on. But their dedication and endless effort paid off when guests gave them a thunderous applause after they delivered a 'clean' and beautiful performance. It was certainly a treat to the eyes of the graduates and parents who were celebrated on that day.

DRAMA COMPETITION 'ORANGGANAADAGAM' BY ASTRO-VANAKAM MALAYSIA

In 2013, Myskills students participated in the first Stage Drama Competition organized by Astro-Vanakam Malaysia. We competed against 100 over higher education institutions and emerged as 1st Runner Up. In 2014, Myskills competed again and we became the CHAMPION. But in 2015, we took a break.

"Ethirneechal and Pagalavan Team In Action !

After much persuasion by our students, we decided to participate in the 2016 drama competition. Our 'Ethir-Neechal' (group name) team competed against 90 odd teams from Universities, Polytechnics and Colleges. Indian cinema actor Mr. Nasser was the Chief Judge of the grand finals followed by local professional artists and media experts Mr. CK, Mr. Ganesan and Ms. Hema.

Words cannot express enough how we jumped out of joy when we were announced as the CHAMPION again! Despite coming from the poorest segment of Malaysian Indian community, dropped out from school,

"2016 OranggaNaadagam Champions-Ethirneechal"

branded as 'Good for Nothing' by their families, teachers and communities; our students became CHAMPION. All because we gave them HOPE. We restored their SELF-DIGNITY. We stood by their SIDE.

Congratulations CHAMPIONS!

vanakkam

The background is an abstract composition of warm colors, primarily reds, oranges, and yellows. It features broad, diagonal brushstrokes and numerous splatters of varying sizes, creating a textured, painterly effect. The colors transition from lighter, more yellowish tones at the top to deeper reds and oranges towards the bottom.

VOCATIONAL SKILLS

Certified Holistic Training Programs

ELECTRICAL

The course structure is designed for students to provide basic electrical skills to those who need to perform first-line electrical maintenance tasks including the safe isolation, replacement and testing of a range of common electrical devices (motors, sensors, heating elements, and etc.) in a safe and effective manner. Importantly, the format of the course is specifically designed so that, when combined with suitable on-site consolidation of training, it will ensure in meeting the legal requirements for employee competence in electrical work.

MECHATRONIC

The course structure focuses on laboratory practice and applied examples which is specially planned and executed for our youth. They gain basic knowledge of engineering processes, product design as well as the use of digital electronics or computer-aided design (CAD) software. Students

need to possess mathematical and technical skills, logical analysis, project management and the ability to work in teams. Professionals also keep in touch with the global needs of society and innovate machinery according to those needs.

Secretary is to provide administrative support and services for Lawyers, Solicitors and Legal Executives. It is their job to ensure that an office runs smoothly and efficiently, enabling their employers to focus on serving their clients. Our student's will be refined until they could play the role as a Corporate Secretary; organizing and operating the office filing system, typing and processing various legal documents, including appeals, summonses and subpoenas, taking incoming calls, scheduling meetings, and organizing the calendars of legal executives and carrying out other administrative errands, including photocopying, faxing and ordering stationary.

CORPORATE SECRETARY

The course for corporate secretaries will develop our student's secretarial skills and help them to succeed in the legal environment. Adhere; Corporate

BAKING PRODUCTION

The baking production adhere means to prepare and utilize at-risk and underprivileged young people as dough punchers. The students are well equipped to produce high quality breads, buns, and baked goods. Practical hands-on training enhanced learner's wishes to upgrade or acquire such skills in their present training via the course; personal hygiene, food sanitation, work safety, function and knowledge of raw materials used, dough mixing procedure, techniques and dough making and pre-handling processes.

**MORE SKILLS :
BY VOLUNTEERS & PARTNERS**

LOCKSMITH/TECHNICIAN CLASSES

“Technical plus Enterprising by External Trainers”

Apexes Specialist Trainers offered Myskills students two short term courses on the field of Domestic and Locksmith Technician. A total of 50 boys have been involved in these courses for 11 weeks. The training focuses more on exposing the students to enterprising and business capacity building after acquiring the skills competencies. We found students who are about

to complete their programme and graduate from Myskills show greater interest in these classes because they open them to various job opportunities to explore. These additional skills classes are conducted every weekends to ensure they do not disrupt other programmes and activities run by Myskills on the weekdays.

“Weekend training on both skill and enterprise model.”

IT & COMPUTER LITERACY

"I used to type with just one or two fingers. My friends always laughed at me. But this changed when I picked up some typing skills taught in class", expressed Loges (a student of Myskills).

Basic computer skills are essential especially for students undergoing the Secretarial programme in Myskills. Mr. Prabu Balakrishnan, a committed volunteer with vast IT and computer knowledge has dedicated himself in conducting weekly classes on IT and Computer Literacy at Myskills centre. Students are taught basic computing, typing, printing, scanning and other clerical skills that involve computers.

Mr. Prabu has been providing his altruistic services for Myskills for almost 4 years. He has trained so many of our graduates who have now been employed in legal firms, corporate offices and industries.

"Mr Paraba conducting hardware maintenance training."

PLUMBING

Plumbing courses are highly in demand now; yet not many are interested in taking it up as a job. Maybe because they do not want to get their hands 'dirty'. This is certainly a wrong perspective.

We introduced plumbing class to our students so they can acquire added-skills which would definitely help when they look out for a job. Classes are conducted 3 times a week in the centre by Mr. Ramachandran, a plumbing expert. Students who have interest in the field of plumbing and piping are chose to participate in this class. Sometimes, students are brought outside to gain on-the-job training and

"Mr Rama, monitoring the finishing points for piping outlets"

hands-on experience which we found students love the most. These students show greater confidence in handling pipe repair works during practical lessons. To our surprise, some of them have independently fixed our toilets with lesser cost than expected!

GREEN HANDS

“Daily task to water plants, clean and help to preserve the hostel environment”

“Rainwater harvest supply for watering plants”

Green Project is a brainchild of Myskills; initiated after joining hands with SGP (Small Grants Programme) of UNDP in 2014/15. Students are taught and exposed to basic knowledge of why one should care and preserve environment through this project. They are encouraged to do gardening at the hostel backyard which includes

seeding and watering plants. Green Project Student Leaders plan and carry out gotong-royong activities (cleaning-up place in a group) everyday. Students who are very much interested in gardening are taught on natural fertilizers, herbal plants and vegetables that can be planted for hostel cooking purposes. Some of those who desire to learn more about gardening and farming are sent to Kalumpang (our newly bought land) to gain hands-on experience under the coaching of Mr. Siva and Mr. Sivam (who have vast experience in the field of farming).

The background is an abstract composition. A broad, diagonal brushstroke in shades of yellow and light green runs from the top left towards the bottom right. Below this, there are several splashes and blotches of vibrant red and orange, creating a sense of movement and energy. The overall color palette is warm, dominated by yellows, greens, and reds.

TRANSFORMATION BY PARTNERS

DISCOVER MUAYTHAI (DMT)

“Train, Train, Train.....Do it at your best of best”

Discover Muaythai (D.M.T) provides Muaythai-based health and fitness training and services for both corporate bodies and individuals. Discovery Muaythai (DMT) gave a opportunity to Myskills students for 2nd year. Last Instructors, trainer and the Ceo had a visit to Myskills Center, 30 students participated in DMT training selection. Among them, 5 was selected for year 2015. Since we have experience from last year, our DMT senior students 2015 have organized the selection of 5 best students for DMT 2016.

Then, the 5 selected students were brought for an interview at DMT centre (Bukit Bintang). From the interview 3 of the students Prabakaran, Ruban Raj and Viki Tan. Selected youth from marginalized backgrounds undergo an intensive 3-month (March 2016 - May 2016) development programme (with the D.M.T Academy) where they learn fundamental values in life such as respect, discipline, honour, self-confidence, resilience and leadership. The graduation will be held end of May 2016.

Preparing for intensive training

PEACE PROGRAMME

P.E.A.C.E. Program also known as the Performance Empowerment Attributes towards Collective Excellence program. The P.E.A.C.E. Module is a transformative program towards self-mastery. The program is designed for the current generation to lead and empower oneself towards collective excellence. P.E.A.C.E. is a transformative formula that has proven encouraging results in shaping one's life and guiding towards sustainable leadership success.

This program was first introduced to the students of MySkills Foundation Malaysia, whose ages ranged from 15 -26 years. The final aim of the program is to help the students discover themselves and lead a peaceful and happy life.

The program starts with the coaches carrying out a profiling session with the students. During this session, the students are asked to list down the challenges that they face and the sacrifices that they needed to make to become successful in their studies and lives. This profiling session also enables the coaches to get acquainted and build a connection with the students.

Various games are played where the students learn to work in a team, have consideration for others and also discover their hidden talents. The more serious aspect of the Camp was the introduction to discovering the path to happiness in life. During the Camp, many of the students realized that in order for them to be happy, they have to first be happy with themselves as well as be considerate of others and keep serving mankind without expectation.

"Realizing true potential through greater spirituality."

myHarapan

Team building exercise with the training

MYHARAPAN-ETIQA

MyHarapan has collaborated with Etiqa for the program called “SEED” for youth empowerment via entrepreneurship.

SEED aims to provide the opportunity for participants nationwide to acquire entrepreneurial and technical skills to start their own business or find employment. SEED is a collaboration between Etiqa and two non-profit organisations – the Youth Trust Foundation (myHarapan) and the

Foundation for Women’s Education and Vocational Training Malaysia (YVPWM).

The training was run by myHarapan team, at which they have assess and recruit our MySkills students, monitor and report on their progress, as well as provide support throughout and after their SEED training. Throughout the programme, the participants undergo a structured training and coaching programme in area such as

self-management to give them a better understanding of a life.

The students were equipped with the exposure of their life timeline, what has made them to date, what are the challenges and loses has they faced throughout their days and nights, what are the lacking initiative in them to be classified as an underprivileged youths and how ready are them in transforming their live to a better level

REX FEEDS HOMES

MySkills Foundation had the privilege of being one of the organizations that could benefit from Rex's social responsibility initiatives. It is certainly a great honor to be selected by REX Sdn Bhd. MySkills are more than glad to join hands with REX in providing to those in real need of our community. MySkills Foundation is extremely proud and blessed to be part of such a noble cause by REX Sdn Bhd.

This contribution had made possible for us to provide variety of food for the underprivileged youths underlying transformation programme at MySkills. We always extend our heart-felt gratitude for supporting our mission towards developing and transforming our youths. Our organisation is actively striving to provide the best for our students. Indeed, this project is helping us to reach closer to that. We sincerely appreciate THE REX TEAM for their endless support.

"REX adding value to daily/weekly menu"

Refreshing rexbena after tiring activities – sport, gardenia, cooing and meetings.

PREMIER SKILLS ENTERPRISE CHALLENGE

Myskills Foundation participated again in the 2nd Premier Skills Enterprise Challenge organized by British Council which commenced from December 2015 until February 2016. This challenge aims to breed creative minds for enterprising models that could benefit any football clubs to strategize on their fan base and income generation at the same time. Football being the most favorable sports among these students attracted close to 5 teams (each comprising 5 participants) for the workshop conducted during January 2016. Right after the workshop, all teams were given the challenge card and briefed on the PLEC requirements for internal competition scheduled on end of January 2016.

The teams were given time during weekdays and weekends to come up with business plans which supports their own idea on the marketing strategy. The internal competition finals were judged by Dr Kishan (volunteer), Mr Kumaravel (football coach), and Ms Sharyn (British Council representative cum project director) to select the winning team representing Myskills Foundation in the national finals. The team gave their best attempt to compete with the other two finalist teams from Sri Chempaka International School and Sunway University College. Myskills Foundation team won 2nd place in the finals and missed the chance to represent Malaysia in the global competition.

"Maxis Corporate team with Myskills Army on a mission"

HOTLINK - MAXIS VOLUNTEER DRIVE WITH MYSKILLS FOUNDATION

80 of MAXIS volunteers visited and spent almost one whole day with 120 Myskills students at their hostel. In conjunction of the MySecondChance campaign to raise awareness on youth at risk and to join hands with Myskills Foundation, Maxis team had taken great initiative to promote the cause and at the same time contributed to the students living environment.

On that day, the team moved into 4 different teams to undertake task such as painting, cooking, gardening and building the futsal court (the best part). Together with the students deployment, the atmosphere was so noisy with healthy conversation, sharing on each other background, number of advices and pressure attack on time. The team were totally drained out of energy as they gave their best and THEY COMPLETED IT.

The boys no more have to spend huge amount to play futsal as they have their own court now. The green hands who planted new crops, have been harvested for the Sunday cooking at hostel by the students themselves. The clean environment after a new coat of paint, add more values to our world in hostel. Our gratitude towards the 80 Maxis volunteers will always be there in MyskillsFoudation's heart memory. THANK YOU MAXIS and TEAM!

Volunteers and students everywhere in paintly, gardening, cooking and building.

"Building right values for better future"

WORK READY NOW - Soroptomist International Damansara

WORK READY NOW! (WRN) is an Education Development Centre (EDC) curriculum and training which gives an idea of the work ethic to the students. WRN Programme is held for the second time in MySkills Foundation this year.

A total of 29 students participated in this program and 12 trainees from the Soroptomist International Damansara conducted the training sessions for the duration of 1 week for these students.

Students learnt on 7 modules regarding self-development, interpersonal communication, work habits, leadership, safety and financial responsibility. This module provides a learning environment that supports and enhances the interactive and discussion between students and trainers.

In this training, they participated well to get information from the coach who led them to be ready to face the working environment in the future.

Teamwork, self-confidence, and responsibility the fundamental lessons learnt the modules.

SELFY WITH AKPK

SELFY – Social Enterprise Literacy for Youth is a programme conducted by AKPK (Agensi Kaunseling & Pengurusan Kredit) with our MySkills students. This short term programme is conducted by the special trainers from AKPK ; Mr.Vijay Ratinam and Ms Nirmala with the motor of empowering the youth with the exposure and basic social

entrepreneurship skills to embark their own social enterprises. MySkills has been chosen for this pioneer project along with Taylor University and University Science Islam Malaysia (USIM).

During this programme, our students were briefed and exposed on the cash flow management, exposure on

marketing and basic business set up ideas which enhance the credibility of the students. In order to train and enhance a real business experience, the students were given a modal to start their own social enterprise for the duration given and the students are fully monitored throughout the duration.

“SELFY- Creating Ideas for Business Potential”

HANDICRAFT FROM RECYCLED PRODUCTS

A social enterprise project was introduced to our students by AKPK. One of the group “ ALL IS WELL” came up with the plan of selling recycle items as their social business. They collected all the items needed such as cardboards, used ribbons, dry leaves and etc. They used this items and develop a plan of creative bookmarks.

This groups managed to create various type of bookmarks with the concept of nature and it was their 1st time involve in this social business which allows them to decide on their items which is the handicraft from recycled products.

One of the initiatives undertaken by the girls to create recycle handicrafts.

*"Diversifying
Library
for Learning
Needs"*

PORT KLANG LIBRARY – JOM BACA !

Port Klang library plays a key role in the cultural and social life of our MySkills Foundation students. This is because it has been a central point for engagement with all kinds of reading, indoor class activities, access to information, knowledge building, deep thinking and lively discussion. It is a fundamental resource for supporting students' learning, and a key support for teaching staff. In addition, engagement of our students in Port Klang library do enhance certain key competencies in them such as thinking, using language, symbols

and texts to describe or present their ideas according to the environment, managing self, relating to others, participating and contributing for the task assigned. Furthermore, practice of good values also can be seen from them. Adhere, we do conduct our group discussion, mini chess matches, internet accessible and we do collaborate with them in selected activities to be carried out at Port Klang.

Diversifying local library for learning needs.

BI1M

BI1M (Bahasa Inggeris 1 Malaysia) is an initiative under the National Blue Ocean Strategy (NBOS), implemented by the Ministry of Finance. The programme aims to improve the standard of English in Malaysia by teaching basic communicative for our students at MySkills Foundation. Through BI1M, our students will be able to build their confidence in the English language.

Our secretary student had the chance to join and participate in this program which will be going on for 3 months (April 2016 – June 2016) at MySkills. They will be awarded a certificate upon completion in July 2016. Our students have developed and increase their vocabulary through BI1M classes. Learning English Through games and discussion made it more fun for the students. They are engaging well during the lesson taught with the volunteer from BI1M.

*Imbroging communication skills
thought basic steps*

MYSKILLS (MYSAF)

A group of 4 students (Yogeswaran, Renganathan, Poovarasana and Sathiya) came to Myskills center and was having casual chat on their progress after leaving for job and was sharing mostly on their valuable memories while studying at Myskills. Four of them were quite committed to gather their batch mates for a dinner and get them to contribute on any ways they could to support the cause.

The casual chat had sparked the spirit to engage on this quite seriously and almost everyday without fail, they started to gather ideas and began working on them. On 16th April 2016, we had the first alumni meeting to

plan the organizing committee and fix the date for the first alumni dinner event. The team has chosen to name themselves Myskills Student Alumni Family (MySAF) and began calling the fellow alumnis.

They managed to get good response from the first 50 list as many shared that they are interested to gather and plan forward. These four boys never stop coming to centre and continuously engaging the current students sharing the values and qualities acquired after the transformational process happened within them.

"Myskill Alimni force leading the saturday night fever."

Our change agents return to lead new recruits with the right 'culture'

UKM ALUMNI (TAILORING CLASS)

i-Alumni UKM

"Empowering single mothers for micro business model through tailoring"

MySkills Foundation and Persatuan i-Alumni UKM have collaborated in offering tailoring classes under SIMBiz project (Single Indian Mothers Business Project). This project is specially offered to the single indian mothers or woman in need. This class takes place every Saturday from 2pm- 4.30pm, at MySkills Foundation. The duration of the course will take 8 months to learn as a whole.

This initiative is created to help the survival of single mum especially where they were also given the opportunity to learn this tailoring skill. During this programme, the mothers are taught on how to sew various kinds of clothing; saree blouses, dress, shirt, long dress, skirts and etc. By this, it would ensure the exposure towards tailoring rise up. This effort has helped quite numbers of mothers to survive in a better environment where they could come up with a small in-house tailoring shop/ business.

Dr.Thilaga and I- Alimni ukm voluteers on weekly training classes at myskill foundation.

SPIRITUAL TOUCH

SPIRITUAL TOUCH

"Yoga training by Mr Guna on every Wednesdays"

YOGA

Our dedicated volunteers Ms Elizabeth and Mr Guna lead Yoga and meditation sessions weekly once for students in the hostel. Some students are actively involved in these exercises as they see great opportunity in improving their all-round well being. In fact, regular yoga and meditation practice are one of the most effective, easy and natural ways to help students achieve inner balance, peace and better health.

Moreover, students are exposed to basic methods of each session; phase by phase. The techniques shared are to train them on how to 'cleanse' their inner selves and to decode the condition of their energy to stay focused and attentive in whatever tasks they take up.

Practicing lessons learnt on evening after returning from class.

SPIRITUAL TALKS & TEMPLE VISITS

Most of our students are found to love 'ritual practice' rather than ritual belief. They love worshipping 'demigods' and to our surprise some even were found worshipping weapons. In pursuant to this, Temple visits and spiritual talks have been frequently organised aiming to give the students a better understanding on religion and its universal positive values that one should try to internalise and practice.

"Spiritual talks and meditation by Hindu Sangam and volunteers"

Regulating self-control on focus and privities in daily progress.

Church volunteers guiding on tuesday sessions at hostel.

BIBLE KNOWLEDGE CLASS

The Christian students are to attend Bible knowledge class weekly once; on every Tuesday at the hostel premises. Ms Hema a young vibrant dedicated Bible Knowledge teacher conducts heart touching sharing sessions with students to make them realise their worth and why they need to shift their minds from bad to good.

Many of our students have confessed of having poor self control and never thought that a positive change would be needed to improve their lives. We believe continuous spiritual guidance helps students to stay on track and transform them holistically to some extent.

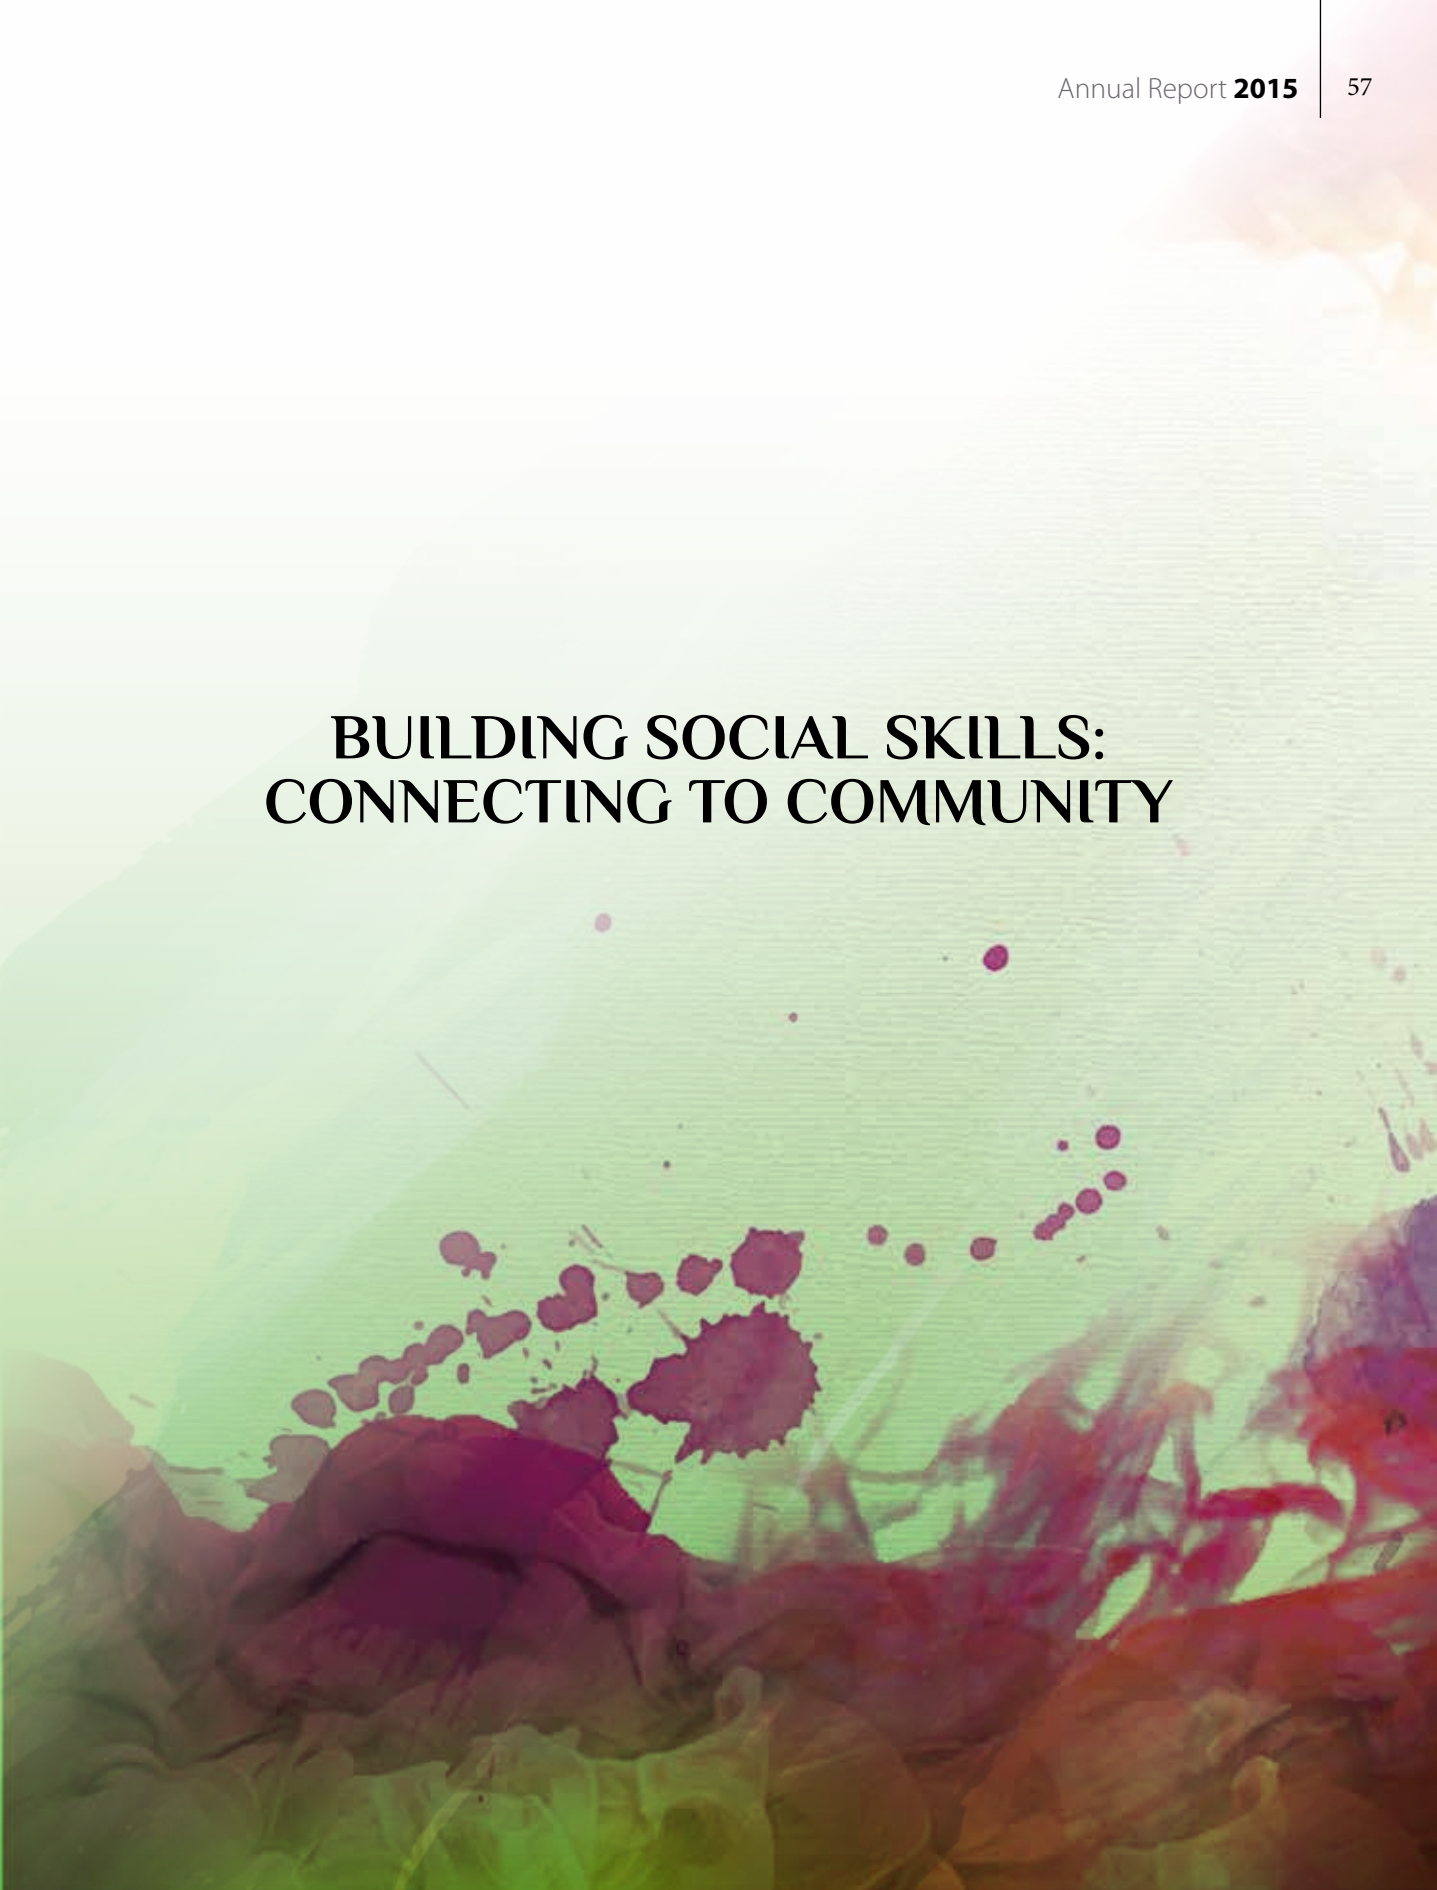

Tuesday hajan sessions at assembly hall.

DHARMA CLASS BY NGO PARTNER : HINDU SANGGAM

Klang Hindu Sangam Division, a religious based organization has been conducting weekly Bhajan (devotional songs) and religious classes every Tuesday in our centre for the past two years. Hindu students who participate in the weekly classes religiously are encouraged to join the National Conventions and Religious Camps held by Hindu Sangam Malaysia for youths. Students were also encouraged to participate in Dharma classes which aim to teach students on importance of moral values and how one should lead a right way of living.

BUILDING SOCIAL SKILLS: CONNECTING TO COMMUNITY

"Hospital visits in HBKL wards by Mr Muthu and student team"

HOSPITAL VISITS: WE CARE TOO

Visiting patients in hospital to show support that we care too of their health and well being is one of the major community-connected activities participated by our students (led by volunteer Mr. Muthu). Our students visit wards in General Hospital of Kuala Lumpur and never forget to bring fruits and gifts for patients. "The gifts or 'buah tangan' certainly bring much joy to patients especially children and those who are neglected by families" expressed Geetha, one of our students who participated in the hospital visit activity.

Students realise how important it is to overcome emotional obstacles in life during the sharing sessions they had with patients. They realise how important it is to be empathetic towards needy patients by providing comfort, understanding and reassurance.

De-briefing sessions after the visit.

FEED THE HOMELESS BY

Feed The Homeless project is an initiative by the Corporate Responsibility Team of REX Sdn Bhd, a food manufacturing company based in Klang Valley. They provide food to the underprivileged and homeless people living in the streets of Kuala Lumpur targeting places such as Jalan Pudu, Kota Raya and etc.

Myskills grabbed the opportunity to join hands with REX in this project. We were privileged to be selected by REX to assist them in making this project a success. Volunteering students from Myskills gather weekly twice on every

Sunday as early as 7am at Kota Raya street to distribute the food packs to the homeless. Feedback from students who participated in this project enlisted below.

"I never knew there were so many homeless people living in the city. It was definitely an eye opener."

"I was nervous when told to distribute the food to one of the beggars. He was very thin, messy and dirty. But I still remember the way he smiled to me when I handed over his food pack."

"I was told that some homeless people can't afford to have even two meals per day; that made me to realise how lucky I am and why I should not waste food."

"Feeding the homeless on weekends with REX corporate team"

Creating empathy and sharing the needs of homeless.

PUBLIC PARK CLEANING

Cleaning up neighbourhood parks is certainly a rewarding project for both neighbourhood members and students. Our students are brought to nearby neighbourhood parks around Bandar Botanic, Klang on Saturdays. They spend 2-3 hours picking up and clearing rubbish in the park. Its visual and the results can be seen right away (before and after cleaning), which is why most of our students are always geared up for park cleaning.

In most instances students get astounded at how much trash there is and at the numbers of garbage bags they have collected with rubbish. Yes, too many! The lesson learnt here is, it may be easy to litter, but it is certainly the vice versa when it comes to clearing them off the ground. It takes greater effort and patience.

Another major advantage of this activity is, it creates a way for us to educate children on why one should care for environment and preserve it for the betterment of all mankind.

*"Cleaning is habit,
make it our culture"*

Ethical responsibility training community initiatives.

VISIT TO OLD FOLKS & WELFARE HOMES

Visiting old folks and welfare homes are 'must-do' activities at Myskills. It was found that students who have visited old folks home and welfare homes certainly show great improvement in behaviour after the visit. Many claim the visits gave them fond memories and wonderful learning experience. Some of the homes visited within Klang area are Rumah Kasih Sayang located at Taman Gembira, Pusat Jagaan Indra in Teluk Pulai and the Good Samaritan Home.

The students involve in various activities during the visit such as cleaning up the home, fixing electrical plug points if need to (done by our boys who are trained on electrical), feeding elderly citizens and handicapped children. Many students express that the sharing sessions they had with the inmates in these homes were heartbreaking especially after listening to the stories of those who were abandoned and rejected by their families.

Weely visits to meet the ol folks and underpriveleged uids.

Regular visits to Welfare homes (Pusat Jagaan Kasih Sayang, Good Samaritan Home, and more)"

SPECIAL HIGHLIGHTS

JAGAT THE MOVIE

Jagat (Tamil slang for Malay word 'Jahat' which loosely translated as 'Bad') is 2015 Tamil language Crime Drama movie from Malaysia.[3][4][5] The film were directed by Shanjhey Kumar Perumal. The director intended to document the plight of the Indian Malaysians during post estate era. The movie were set in the early 1990's, a critical period in Malaysian Indian history, the story subtly underlines the plight of the Indian Malaysians, who are forsaken by the estate owners and are forced to move to the cities and survive under harsh circumstances. The story follows a

mischievous 12-year-old boy named Appoy and his relationships with his father, Maniam, and his uncles, former drug-addict Bala and local gangster Dorai.

The film were released on 17 December 2015 and considered as one of the best Tamil Language movie was made in Malaysia.[6][7] The film managed to gross a moderate collection in box office although facing a huge competition from blockbuster movie like Star Wars: The Force Awakens and Pasanga 2. Jagat also first Tamil language Malaysian movie to screen in cinemas for eight weeks running.

Appoy is a school kid with a creative mind who couldn't cope up with the formal system. All the while he got attention through his art. When he was forced to the edge of the system he begin to lose his identity. Later he is pushed into a loser category. At one point he begins to get attention when he started to perform outside of the system as a wild character. Because of the strong outer factor of the system and due to confused feelings he chose to remain as a wild character without knowing he is actually being a slave of the rotting system

Choral Speaking

MySkills Family Day 2016

Theme: 'Together We Transform'

This year's Family Day celebration was indeed a great success. Almost 400 parents and family members gathered and showed full support in making the event a success.

Our bonding with parents and students got strengthened besides having a strong bonding with MySkills volunteers and industrial partners. Connecting to students and their families is the utmost priority for us at MySkills. Families play a crucial role in ensuring the transformation process to 'reengineer the characters' of their children succeeds.

All participants were divided into 6 groups named Vaimai(Justice), Unmai(Truth), Porumai(Patience), Menmai(Greatness), Nermmai(Honesty) and Othrumai (Unity). The groups are named as such in order to cultivate positive values among the families and students. Many fun filled games and activities were carried out which involved both parents and students.

Games such as 'Fill in the Bottle' and 'Eating Freezy Apple' enhanced the team work and creativity of each members of the group. The most exciting game was 'Make Over Your Dad'. Fathers' and sons' faces were applied make-up by their daughters and wives. All games were enjoyed thoroughly by all with non-stop cheers and surrounding applause. Of course not forgetting the banana leave, mouth-watering lunch served by our students to their parents was another highlight. Food is served at once to all participants to foster the one big family atmosphere to all.

Kudos to Mr Muthu, a volunteer of us who led the organising team of Family Day together with all staff, supporters of MySkills who contributed immensely towards the success of the event.

We extend our thank you wishes to Minnalfm crew DJ Prema, DJ Mogan and DJ Tya who graced the event too.

Capturing moments through banner, signing.

Children feeding the parents.

Best father award winner.

Best make up match participants.

Catwalk with style.

Orangga Naadagam

YEAR	POSITION
2013	1st Runner Up
2014	CHAMPION
2016	CHAMPION

"Myskills team had participated almost three years in the Drama Competition organized by Vanakkam Malaysia and Astro Vaanavil since year 2013 upto 2016. Only on year 2015, we decided take a break and come again fresh on the following year and start focusing other talent areas. Throughout the training and preparation period, most of the participants undergo huge character transformation effect, and that itself gave them competitive edge in the overall pursuit to win."

Winner of 2013
Orangga Naadagam
1st runners up.

Winners of 2014
Orangga Naadagam
Champion

Winners of 2016
Orangga Naadagam
Champion.

SPECIAL REPORT : KEMPEN ISI PENUH 7.5% ILP & IKBN

The 'Isi Penuh 7.5% ILP & IKBN Campaign' is a nationwide campaign initiated last year (2015) by MySkills Foundation to promote government-run skills training institutes among Indian youths. The project aims to increase the number of Indian students enrolled into government-run institutes like ILP (Institut Latihan Perindustrian) and IKBN (Institut Kemahiran Belia dan Negara) which comes under the Ministry of Human Resources and the Ministry of Youth and Sports.

Comparatively, the campaign which was held this year in March, 2016 proven to be more successful than last year especially in terms of number of applications gathered nationwide. The chart below shows the comparison between campaigns held in 2015 and 2016. The number of applications have risen from 666 in year 2015 to 870 in 2016; a percentage increase of almost 13%.

The above table clearly shows a big difference (almost 40%) between

the number of seats offered in year 2015 and 2016. However, it has to be cautioned that 515 is not the final number of seats offered as MySkills have proceeded with appeals for unsuccessful applicants which are in progress. The final data is estimated to be released in August 2016. However please find below the tables compiled on the seats offered in ILP and IKBN for year 2016 by course and number of students breakdown.

CAMPAIGN YEAR	States Involved in Campaigns	Number of Campaign Locations	Number of Visitors	Number of Applications	Overall & % Seats Offered
2015	1. Kuala Lumpur 2. Selangor 3. Kedah 4. Perak 5. Negeri Sembilan 6. Johor 7. Pahang	12	3,000+	666	618 (92.7%)
2016	1. Kuala Lumpur 2. Selangor 3. Kedah 4. Perak 5. Negeri Sembilan 6. Johor 7. Melaka 8. Pulau Pinang 9. Kelantan 10. Pahang	48	5,000+	870	515** (59.2%)

Student briefing for IKBN registration day after successful application.

A special thanks to all those who have directly or indirectly assisted and participated in the campaign. We would like to extend our biggest heartfelt wishes to our State Campaign Coordinators Ms. Muniama, Mr. Punithan and their team (Johor), Mr. Maha and his team (Melaka), Mr. Kumaran, Ms. Punitha and their team (Kedah), Mr. Ravi, Ms. Shamini and their team (Perak), Mr. Prabu, Mr. Mathan and their team (KL/Selangor), Mr. Mariappan and his team (Penang), Mr. Manivannan and his team (Kelantan), Mr. Anba, Ms. Vanitha and their team (Negeri Sembilan) and Mr. Selvanayagam and his team (Pahang).

Facilitators of kip briefing at each respecting status to guide on registration progress.

4th MYSKILLS GRADUATION (2014/15 Session)

MySkills Foundation Graduation 2014/2015 session held successfully together with 149 guests, graduates with the parents, staff and volunteers of the Foundation. This year Graduation was held in two sessions due to the increase number of graduates as below :

Date : 8th April 2016
 Time : 9.00 am - 6.00 pm (session 1 and session 2)
 Venue : SOMA Auditorium, Wisma Tun Sambanthan
 Participation : 149 graduate and 300 (parents, volunteers, staff and the audience)

Special guests who graced the ceremony were YB Datuk Saravanan (Deputy Minister of Youth and Sports cum founder of NAAM Foundation). Parents and graduate attended the session on time accurately and also guided to follow the rules and etiquette of the ceremony. Below is the graduate list of the 2014/2015 session: -

SESSION 4 - YEAR 2014/2015		
COURSE	LEVEL	TOTAL
ELECTRICAL	1	5
	2	13
BAKERY	2	7
MECHATRONIC	2	40
	3	23
WELDING	1	1
	MYSKILLS TRAINING	3
EXECUTIVE SECRETARYSHIP	3	17
LEGAL SECRETARY	1	3
	2	18
	3	19
		149

Graduation went on smoothly with the help and support of the students of the Foundation and all the attendees enjoyed the success of the session. Parents were very appreciative to MySkills which made them to realize that their children too can succeed.

2nd Convocation Sessions for 2014/15 officiated by dato'saravanan

Thurka, special award winner for 2014/15 session.

IMPACTS ON LIVES

Sasikumar

Sasi is a 15 years old boy who came from Sg Petani with great expectation from his single mother to ensure the son has a good future in Myskills Foundation. He belongs to an environment full of gangster clans and early dropout plague affecting most of the teenagers in his neighborhood. Back in school, he was not performing well and began to play truant and was exposed the same risk like any other teenagers there. The concerned mother made up her decision to take him out from school when she heard about Myskills Foundation and its programs through the school teacher. He was enrolled for Bakery Production course six months in prior MyBakery was established and he was one of the pioneer groups to be trained under the social enterprise. After almost a year in Mybakery, he was offered for a job (Pastry kitchen assistant) in Park Royal Hotel from a volunteer Chef who comes regularly to train the students in Mybakery. Sashi is now entering third month of career growth in Park Royal and holds great commitment as his work starts early 4am for his shift. We believe this young boy will be a great aspiration for the teenagers exposed to dropout risk and save them from becoming a liability for all.

"I never imagined myself waking into 5-Star hotel and what more given a chance to work in this environment. The two things which came to my mind were my mother and Myskills. I am proud now to tell everyone that I work in 5 Star hotel and many still can't believe this. My next aim is to get myself confirmed on the job soonest and get a motorcycle with license. Thanks for accepting me as who I am!"

Naavarasan & Mugunthan

Both Naavarasan and Mugunthan made honour for Myskills to gain talent based recognition in the national arena for youth at risk when the team won "Orangga Naadagam 2014 & 2016", a national level Drama competition organized by Astro and Vanakkam Malaysia. Despite being academically challenged and routinely deprived for opportunities, Naava never gave up chasing the dream and even worked almost 5 years on it. Mugunthan, a very loyal and enthusiastic character, is ever willing to follow any direction given by the master. After winning the competition, Myskills Directors and team felt this leadership quality will best utilized on the next social enterprise venture (MyAuto Services) as the future business leaders. Both of them are now under automotive training to lead the operations and we see great commitment there.

"My life was so normal with routine job and never had much opportunity to prove my potential. I always wanted people recognize my talent and praise for that. Later I realize after achieving the winning spot in the Drama competition, I can even do more than this. That is when this MyAuto Services came so coincidentally with God's grace. I will prove myself definitely!

-Naava-

"Career was not an important matter until I was in Myskills and that's where I learned what life is as well. I knew I was so weak compared to smart students in school but somehow I knew I am special in way, just that I couldn't prove it then. But the moment came when we were announced as winner; I just felt so TALL (although I'm very short) and showered with so many wishes. That was one of the GREATEST MOMENTS in my life. I knew it was temporary SUCCESS. I wanted to part my full commitment and view more SUCCESS there. I have found MyAuto Services and I'm clear now.

Mugunthan

Nagulan

Nagulan is another epic story of Myskills journey from the year 2014. He was also a common youth at-risk exposed in illegal motor racing, smoking and so on. His initial adaptation process in Myskills was not easy until he found a senior student who helped me to stop smoking. The strong peer influence had resulted in positive change and made him to feel good about it also. We found fresh ideas blooming from his new pro-active character and very eager to seek recognition for his change-over. He was also one of the winners of the Orangga Drama team. Looking at his potential, he is offered to act in movie which is scheduled to start in end of July 2016 at Kerala, India.

"I still can't believe the good changes happened in my life now; I used to be very rude and notorious both in school and home. My mother will be the best person to describe how intolerable person I was back then. I have never made her happy and sometimes feel bad doing that. When I saw the tears and hope in her eyes, I felt so good being alive for her."

Lavanya

Hardworking and committed will be the right words to describe this young girl when she came to Myskills. She was very eager to learn any new tasks given to her with great sense of responsibility. Her poor family background was the initial hurdle for education opportunity but somehow she managed herself very well after enrolling in Myskills. She had been actively involved in Golf training which aims to teach special need children for the past one year. She is also one of the winners of OranggaNaadagam team as for her undying spirit. She was so potential to be placed in our first social enterprises (MyBakery) and currently leading the team there.

"Most of the people around never believed in the potential I had and always judge through the appearance. I knew one day, they will turn back and acknowledge my own success. Without Myskills, it wouldn't be possible and I thank God whole heartedly for the chance I had here. I feel stronger now after given a chance to lead the Mybakery team. I will make sure one day this bakery is no different than any premier standard bakery."

Thiruarasu

Being so naive and short-sized boy, many would have underestimated his potential at first impression. But Thiru was so determined to prove himself and just moved on ignoring all the critics. Right after his study, he went on working in Tan Chong Motors and started his own car wash in Selayang. In between there was so much of challenges to maintain time and focus, yet that did not stop him to buy his own motorcycle within a year and tried many jobs he could. He also engages community work with his uncle whenever time permits. Thiru was maintaining his progressive character for almost 2 years and Myskills Foundation decided to award him (Raja Rashid Excellence award) during the Myskills Graduation 2014/15.

"Myskills was always my first choice family where I really discovered my true strength. Some have mentioned that I have been very outspoken lately, as they knew the 'old Thiru' who hardly speaks for himself. I will always follow whatever I learned in Myskills and would die for a chance to do something for my brothers and sisters out there."

MYSKILLS FOUNDATION'S SOCIAL ENTERPRISES:

The port klang team!

Mechatronics

Primus Institute of Technology

Primus was founded on 4th March 2010, to provide holistic skills training education focusing on character transformation as a parallel pathway for the school dropouts ranging from 13 to 18 years old. The directors of Primus introduced the initial model of social enterprise that aims to reinvest the profit made to reach more youths at-risk. None of the directors take home any profit neither dividends but striving their best to promote this venture from the beginning. Primus was established at Taman Tan Yew Lai, Puchong from the March 2010 until Sept 2012, which was later moved to Kompleks Hentian Pelabuhan Klang, Selangor for better resources. Now, we are geared up to move into Kalumpang Youth Transformation Centre expected in January 2017. Primus had been sustainable in the past 6 years

Corporate Secretary

governed by Myskills Foundation through the 'social enterprise' model and impacted the lives of more than 600 students altogether. Now we are heading to Kalumpang Campus with minimized cost on the operational scale which will be effectively reinvested on more students with more value added services.

Electrical

Students whom are enrolled under bakery courses in Primus mostly are slowly learners and physically challenged teenagers. Upon completing the training, we realized that these students need more secured On-Job-Training environment to ensure they are sustainable in the long run. The Board of Directors decided to come up with another social enterprise that will be able to provide jobs for these challenged kids which also trains them on the micro enterprises. It was established in the beginning of year

'Busy hands baking cakes''

Mybakery is also focused to expand through micro enterprises right after the students complete their two year training by providing seeding funds for the business start-up. This will create more impact on the socio-economic status of the families as most of the belong (Bottom 40 %) of the society.

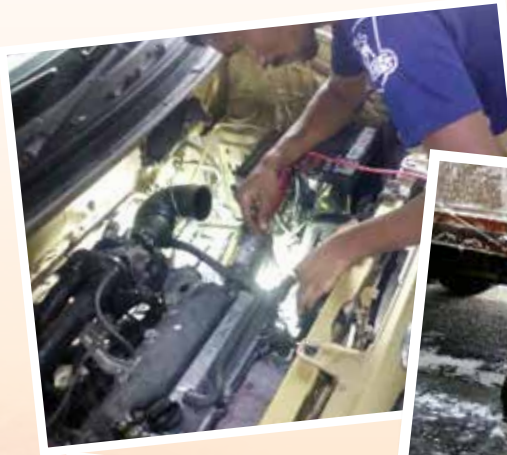

2015 but was launched officially on 24th May 2015. The students being trained under Mybakery will be exposed both in baking and enterprising training. Mybakery also had won "Best Social Enterprise 2015" award from British Council last year June and currently under their incubation as well. Currently Mybakery is based in Port Klang, which regularly supplies for Klang Valley sales and also for free bread supplies to 4 homes in Klang.

Chef Balan on basic steps to teach the baking process.

MyAutoService

MyAuto Service is a recent social enterprise established in Kuala Kubu Bharu during June 2016 which is currently managed by our MySkills students. The auto services provided covers from services like tyres replacement, alignment and balancing, car air-conditioning and also car wash services. MySkills believes that by creating more social enterprises, the impact created not only empowers the students becoming entrepreneurs but also it expands the capacity of the organisation to become more sustainable in the long run. The two young operators of the business are very committed to learn the trade and pushing the limits to expand their customer base within the Hulu Selangor region for the initial stage. We believe this team will create a better training ground for our students in future whom are taken up interest with the automotive industry and also wishing to become entrepreneurs on their own in future.

SNAPSHOTS OF KALUMPANG CAMPUS PROGRESS

MOVING FORWARD

MYSKILLS KALUMPANG YOUTH TRANSFORMATION CENTRE (KYTC)

Most of our at-risk youths did not grow up with the privileges of having parents who taught them right from wrong. They did not grow up with role models who showed them the benefit of being community members who contribute to society. In many cases, they were subjected to neglect, ignorance or abuse either at the hands of their parents, school or others.

These Youths need to be saved.

These Youths need a better enabling environment.

They need a safe place.

They need character reengineering.

They need changes in their lives.

MORE REASONS: WHY WE NEED A TRANSFORMATION CENTRE FOR AT-RISK YOUTHS?

- Population of At Risk Youth is growing. What do we do about it?
- School dropout rate is increasing, almost 7,000 students every year. Where do these dropouts go?
- Juvenile crime is on rise. What alternative rehabilitative institution we have in our midst?
- Students aged 13 to 15 are expelled from school, underserved and academically challenged. How do we help these students?

It has always been our DREAM to build a self-contained transformation campus to achieve all the above. Thus, we acquired 31 acres of building land in Kalumpang, Hulu Selangor. The land was bought together with 3 empty factory lots each located on an area of 23,000 sq.ft on 26th September 2012 for RM3.0 Million from Danaharta. In June, 2016 we bought 30 acres and a factory building which was located in the centre of our land at a price of RM1.9 Million. That the total cost of purchase is RM5.9 Million. Total are is 34 acres The current market price of the acquired land is estimated to exceed RM12.0 Million. Moving forward, we need approximately RM20.0 Million to build the campus and is expected to accommodate 1,200 at risk youths. To date, we have received RM10.0 Million from the government and the remaining we intend to raise from various sources as below:

Source of Funds	Amount (RM)
Prime Ministers Department	10,000,000.00
Fund Raising Activities	2,000,000.00
Commitment from Directors & Promoters	3,000,000.00
General Public Donation	5,000,000.00

Giving youths a second chance

Youths from single-parent and dysfunctional families who are lagging behind in education will soon have a campus to help transform their lives. The campus is aimed at lowering the crime level among youths in the Klang Valley by providing them with

drive from Kuala Lumpur, unemployed youths will get a second chance to learn and enhance their vocational skills. These courses are aimed at keeping academically weak students off the streets. Male

obtained poor grades. MySkills Foundation director S. Pasupathi said the collaboration between

MySkills first college, Primus, can accommodate up to 700 students. "Our centre consists of eight fully air-conditioned classrooms, a computer lab, an assembly hall for talks and activities, four Electrical and Mechatronics labs that can house at least 25 students per session, a library, computer lab, surau and cafeteria."

It is situated in Port Klang town, where public transport facilities such as KTM and buses are within walking distance and there is easy access to major highways. "We also provide hostel accommodation and facilities for the

Six Malaysian Social Enterprises get RM240,000

Why Do Some Kids Give Up On School?

While data from the Ministry of Education show that the dropout rates are low in Malaysia, the absolute number of students leaving the system before completing a full secondary education reaches into the thousands.

In fact, it translates into an alarming that 5, 000 to 7, 000 Indian students SPM.

"When Your Child Tells You He Doesn't Want To Go To School, Take It Seriously"

MySkills Foundation Gives Youths A Second Chance

Despite the fact that primary education in Malaysia is compulsory, there are still students who drop out before completing their primary school.

As a way to help these academically challenged students, the MySkills Foundation was established.

Pasupathi Sithambaram, Director of MySkills Foundation

In an interview with Malaysian Digest, MySkills Foundation chairman Pasupathi Sithambaram said the non-profit organization was set up to help school dropouts.

In the year 2010, the foundation received 16, 000 school dropouts from the Government and 10, 000 students from the private sector.

"It is shocking to see that 16, 000 students were able to complete their primary education in Malaysia but 10, 000 students dropped out."

"Another 10, 000 students dropped out of secondary school."

Malaysian Digest, MySkills Foundation Chairman Pasupathi Sithambaram said the foundation was set up to help school dropouts.

"We provide a transformational program for them to train them on their cleanliness, hygiene and civic responsibility," Pasupathi drew attention to the basic living skills that the center has taken on responsibility to impart to their students.

"Basically we shape them to turn their mindset away from profiting from crime, then only comes the skills part."
